

September 13, 2005

Commercial Team Members,

Our order book continues to experience improved demand for all light flat rolled products, while at the same time input costs have escalated. As a result, it is an appropriate time to reclaim some of the price erosion we have experienced recently.

Effective today, September 13, 2005, Mittal Steel USA will increase our transaction prices on orders accepted for November delivery as follows:

*Hot Rolled:	\$27.50 Base Price
Cold Rolled:	\$32.00 Base Price
Galvanized:	\$33.00 Base Price

Product remains available for sale during October. Those prices are:

*Hot Rolled:	\$26.50 Base Price
Hot Rolled IHE only (through 9/16)	\$25.50 Base Price
Cold Rolled:	\$31.00 Base Price
Galvanized:	\$32.00 Base Price

* Inquire base price for Floor Plate, Medium/High Carbon and Alloy Hot Roll Products

We ask that each Sales Representative notify their customers about this commercial change.

Mike Rippey
