

NUCOR
BAR MILL GROUP
JEWETT DIVISION

June 14, 2004

Dear Valued Customers:

I am publishing the raw materials surcharge for the month of July, 2004. Effective with shipments July 1, 2004, the applicable raw materials surcharge for reinforcing, merchant & structural products will be \$33/ton (\$1.65/cwt).

The monthly surcharge, implemented by Nucor Corporation, is a mechanism to react to record, atypical, increasing scrap, energy, and alloy costs. The surcharge can be calculated by using the current American Metal Market "Chicago Consumer Buying Price for Shredded Scrap – Automobile" minus the established baseline \$162.

As of today (June 14,2004):

Product	Published Index (AMM)	Consumer Buying Price (Chicago)	Program Baseline	July Monthly Surcharge/ton
Rebar, merchant structural	Shredded Auto Scrap	\$195	\$162	\$33

If you have any questions, please contact your Nucor– Jewett sales representative at 800/527-6445.

We are very appreciative of your continued support & cooperation as these changes are implemented.

Regards,

Allen Bracey
Sales Manager
