Re: September 2011 Steel Pricing Announcement

For orders which do not qualify for the new “locked” surcharge policy, the following terms apply.

The most recent structural steel pricing and surcharges have been announced. The Nucor Raw Material Surcharge (RMS) was not changed and neither was the base price. The net effect is that the transaction pricing will remain unchanged. Therefore, Steel King’s surcharge on Structural products will also stay the same as last month.

More bad news on the price of coil steel used in SK2000 roll-formed products, it has risen another \$0.02 per pound. Price increase announcements from multiple vendors have been posted on our website. Therefore, Steel King will increase its surcharge by the same amount.

Lastly, and most dramatically, the price of tube steel has gone up \$0.03 per pound.

The multi-tier steel cost surcharge pass-through will be:

For orders shipping September 19 – October 16, 2011:

In addition, we continue to post the latest news and actual surcharge announcements from our suppliers on our website at <http://www.steelking.com/pricing-documentation.html> . Please review this page for the latest announcements from our steel vendors.
