## SAFETY PRODUCTS

# Safety Gates

Manufactured to the same standards as our Steel Guard® and Armor Guard® railing, the safety gates can be ordered as part of a new installation or retrofitted into an existing system.

- Steel King's Self-Closing Safety Gates use heavy, 11-gauge corrugated steel rails designed to fit a 48" post-to-post center line within a protective railing system.
- The gate is shipped with hinge assembly on one side of the gate and two gate stops on the opposite side.
- Hardware is included and the gates will bolt to the existing posts of a Steel Guard or Armor Guard protective railing system.
- The Safety Gates are easily installed without cutting, welding or drilling.
- Steel King's Self Closing Gate's swing direction is versatile, which allows you to re-purpose gates as required. Changing the direction of the gate is as simple as removing a few bolts and flipping the gate in the direction needed. Steel springs automatically closes gate after passage is complete.
- Gates are shipped completely assembled and ready for installation.

### Steel Guard Features

- Rails: Two corrugated 11-gauge steel, 14-1/2" high, three ribs
- Gate Dimensions: 38-1/2" tall and 43-3/4" wide
- Powder coat finish (yellow) – highly visible, durable and UV resistant
- Hinge assembly and gate stops assembled on gate
- Versatile: Gate can be turned/flipped to achieve desired opening direction
- Easy installation – no cutting, welding or drilling required
- All hardware and end caps included

| Model #   | Color  | Description             | Wt. Each | Price Each |
|-----------|--------|-------------------------|----------|------------|
| SGSLG-048 | Yellow | Steel Guard Safety Gate | 100#     | \$462.00   |

### Armor Guard Features

## Hold 'N Fold® Containers

Utilize the space savings of fold-down baskets with the durability of rigid containers with Steel King's patented Hold 'N Fold containers. Ideal for the inter- or intra-plant shipments, Hold 'N Fold containers self lock when empty, eliminating the need for banding.

- Stackable six high while loaded
- Wire mesh or corrugated steel
- Half-drop gate on both long sides

| Model #       | Color       | Description                    | Capacity | Wt. Each | Price Each |
|---------------|-------------|--------------------------------|----------|----------|------------|
| HF4WM454842VG | Vista Green | Wire Mesh H&F 45" x 48" x 42"  | 4,000#   | 325#     | \$1,459.50 |
| HF4CM454842VG | Vista Green | Corrugated H&F 45" x 48" x 42" | 4,000#   | 436#     | \$1,848.50 |

## WorkingTainers®

Steel King's WorkingTainers perform double duty as storage containers and dispensing units, reducing material movement and allowing work areas to double as storage areas.

- 24" usable depth; 30.5" overall height
- Heavy duty tubular base & corner posts for durability
- Stackable six units high, while loaded

| Model #    | Color       | Description          | Capacity | Wt. Each | Price Each |
|------------|-------------|----------------------|----------|----------|------------|

| TSS4048VG | Vista Green | Tilt & Store Stand for 40" x 48" | 224#     | \$456.50   |

## PORTABLE RACKS

## Stac-King Portable Racks

With Steel King's Stac-King portable racks you can protect your loads during handling, stacking and shipping. Stac-King racks act as their own pallet, eliminating the need and cost of wooden pallets. The Stac-King rack's vertical posts allow the racks to be stacked up to six units high, without load-on-load contact, helping to eliminate product crush damage.

- 4-way (short-fork) base
- Open or wood board deck
- Four base sizes
- Three post sizes (sold separately)

| Model #        | Color       | Description     | Size      | Max. Capacity | Wt. Each | Price Each |

**SK2000 Quick Ship Pallet Rack is ONLY available FOB Sauk Village, IL**

**Notes to Upright Capacities**

- 1) Capacity is based on 36" vertical beam spacing; Larger spacing decreases capacity.
- 2) Capacities based upon interior usage.
- 3) Capacities are for selective rack only.
- 4) Capacities are for non-seismic usage.
- 5) All columns/posts must be anchored to an adequate concrete floor (required by RMI code)
- 6) Capacities based upon installation in plumb condition.
- 7) Capacities are total per upright, assuming equal loading on both posts.
- 8) Stainless steel anchors required for outdoor storage

If any of these conditions do not apply to your application, or if you are unsure if they apply, DO NOT USE THESE CAPACITY RATINGS.

In those cases, contact Steel King's Engineering department for design information.

**NOTE:** A Permit and/or stamped calculations may be required by the local building department prior to installation and is the responsibility of the end user. Rack is for indoor use only. If rack needs to be located outside contact Steel King for assistance. Rack is for non-seismic usage only. If rack is located in a seismic area, please consider the racking designed for Seismic Considerations or contact Steel King for assistance.

\* AP and BG frames available in Vista Green

\*\*BP frames available in Precaution Blue

## PALLET RACK &amp; ACCESSORIES

# SK2000 Boltless Rack

- Boltless 3 or 4 rivet connection for easy installation.
- 1-5/8" step for decking or pallet supports.
- Automatically engaging beam safety locks to ensure proper installation.
- Beams are easily adjustable in 2" vertical increments.

## Step Beams

| Model #      | Description             | Max. Capacity | Wt. Each | Price Ea. |

# SK3000 Structural Rack

- Channel beams have a 7-gauge connector, featuring a wrap-around design with round holes, not slots.
- Beams are bolted to the upright frame. Each end of a load beam is bolted to the column with two, grade-5 bolts and nuts (included).
- Beams are easily adjustable in 2" vertical increments.
- Beams are pre-punched for easy installation of bolt-on beam ties.
